August 2020 — April 2023

## 🔧 Courses

**Python With Full Stacks, IPCS GLOBAL**

February 2024 — June 2024

## 🏆 Extra-curricular activities

**Iris\_Webapp, Kolkata**

April 2024 — April 2024

Iris Flower Classification Web App

Developed a web app using Django and Python to classify Iris flower species based on input parameters. Integrated machine learning algorithms from Scikit-Learn for real-time classification. Designed a user-friendly interface with responsive design and data validation. Deployed the app on a cloud platform for accessibility and ensured security measures. Demonstrated proficiency in full-stack development, machine learning integration, and deployment.

**Hotel\_Project, Kolkata**

May 2024 — May 2024

Creating a Web App to search by human needed. Use Filtration based on ascending and descending order. Less than some amount. Filter by amenities. Created API for all of this work . Use Tools:- Django ,Bootstrap, Python, HTML, CSS, javaScripts, GIT.
